TREATING OUR GARMENTS WITH KINDNESS

SEASON SPRING SUMMER 2027

Les Vacances

ANDAM SS27 offers a balanced proposal between design and commerciality, bringing a premium character to the collection thanks to the careful selection of fabrics and the finish of each garment.

LES VACANCES proposes a journey through five destinations that build the collection's inspirational universe. **Saint-Tropez** reflects the relaxed luxury of the Riviera through a palette of pastel yellows and blues. **Ibiza** conveys a natural sophistication with sage greens and neutral tones. **Copenhagen** brings a contemporary vision in dusty pinks and raw tones. **Marrakech** combines beige, black and spiced red in a universe of artisanal inspiration. **Tuscany** closes the collection with a warm proposal inspired by terracottas, browns and natural materials.

Each mood develops its own language through prints, fabrics, textures and silhouettes, building a complete and coherent wardrobe. In addition, Saint-Tropez, Ibiza and Marrakech incorporate a **guest line**, with more sophisticated patterns, exclusive fabrics and higher value-added finishes.
